JAY GALA

jaygala24@gmail.com jaygala24.github.io jaygala24 jaygala24

EDUCATION

Dwarkadas J. Sanghvi College of Engineering (University of Mumbai) *2017 - 2021*
Bachelor of Engineering (B.E.) in Computer Engineering Overall GPA: **9.86/10**
Applied Math, Discrete Math, Algorithms, Machine Learning, Artificial Intelligence, Natural Language Processing.

RESEARCH EXPERIENCE

AI4Bharat (IIT Madras) Aug 2022 - Present
AI Resident *Advisors: Prof. Mitesh Khapra and Dr. Anoop Kunchukuttan*

- Working on mining high quality bitext pairs from web (ebooks, lecture transcripts, etc) for improving IndicNMT.
- Working on developing speech translation models extending SpeechT5 (Ao et al., 2022) for Indian languages.

Fatima Fellowship Jun 2022 - Present
Fellow (Remote) *Advisor: Isidora Chara Tourni*

- Working on analyzing factual knowledge in multilingual pretrained LMs such as XLM-RoBERTa extending Knowledge Neurons (Dai et al., 2022) and ROME (Meng et al., 2022).

Research Collaboration Sep 2021 - Present
Independent Researcher (Remote) *Advisor: Dr. Zeerak Talat*

- Propose cross-dataset generalization for hate speech detection using Federated Learning extending Fortuna et al. (2021).
- Experiments show around 10% improvement in f1-score with relatively less data compared to centralized training.

University of California San Diego Jun 2021 - Jun 2022
Research Intern (Remote) *Advisor: Prof. Pengtao Xie*

- Implementation of Learning from Mistakes for Neural Architecture Search (Garg et al., 2021) in PyTorch [code].
- Proposed an efficient optimization algorithm as an extension to Garg et al. (2021) for improving NAS by conducting performance-aware data generation using class-wise evaluation (importance weighting) during the architecture search.
- Model-agnostic framework that can be coupled with any gradient-based (differentiable) search approaches.

Unicode Research Aug 2020 - Present
Research Student *Advisor: Swapneel Mehta*

- **Active projects:**
  - Estimating the causal impact of non-expert mentors on the mentee students' careers in Indian institutions.
  - Small-world simulation using probabilistic modeling to understand opinion polarization in online communities.
- **Teaching Assistant:** Summer Machine Learning Course, UMLSC 2021, supported by **Google Research India**
- Presented seminars & paper reviews related to the topic of machine learning and research opportunities.

WORK EXPERIENCE

Unicode Aug 2018 - Jun 2021
Web Developer & Student Mentor
- Mentored a team of sophomores on projects such as Inventory Management, Masters and Placement Portals.
- Conducted workshop on web development and open-source development for over 100 students in the college.

Tata Consultancy Services Dec 2019 - Feb 2020
Machine Learning Intern
- Developed models using VAEs and K-means clustering for customer behavior analysis to prevent customer churn.
- Prepared a custom dataset by developing surveys to handle open-ended and closed-ended questions.
- Extracted feedback responses from handwritten survey forms using OCR achieving 12% CER and 18% WER.

Ucadd EdTech Dec 2018 - Aug 2019
Web Developer (Remote)
- Built a learning platform with support for content streaming, adaptive assessments, doubt-solving, etc using MERN stack.
- Worked on optimizing lecture streaming with limited data bandwidth from hosting providers such as Vimeo.
- Spearheaded data analytics to generate useful insights about the courses for instructors based on user interactions.

Sensum Fintech Jan 2019 - Feb 2019
Web Developer
- Constructed visualization graphs using plotly to show and analyze the trends in the finance trading markets.
- Integrated backend APIs for stock recommendations and improved user experience by optimizing the builds.

PROJECTS

Ocubot - Image-based Dialog *Advisor: Prof. Pratik Kanani*
- Bachelor's project which focused on improving performance on the multimodal task of Visual Dialog.
- Adversarial analysis of existing systems to identify modality biases towards historical context and salient visual features.
- Reduced modality biases by improving visual context with dense captions and attention over these captions.
- Achieved competitive performance to the baseline with around 66% training data (80K images out of 120K images).

Anomaly Detection in ECG Signals *Advisor: Prof. Pratik Kanani*
- Industry collaboration to develop neural models for detecting anomalies in processed ECG signals from IoT devices with a human-in-the-loop approach to semi-automate the process while ensuring the safety of human lives.
- Applied distributed computing algorithms for speed improvements during inference and load balancing by 60%.

Annotated PyTorch Paper Implementations
- Annotated PyTorch implementations of deep learning papers as interactive jupyter notebooks.
- Includes papers such as Word2Vec, GloVe, KimCNN, Bahdanau Attention, Transformer, Neural Style Transfer, etc.

C Programming Exam Portal
- A paperless solution for conducting C programming exam for over 500 students at D. J. Sanghvi institution.
- Generated data-driven detailed reports for students and instructors to enhance the overall learning experience.

SKILLS

Languages	Python, C, Java, JavaScript, SQL, HTML5
Databases	MySQL, SQLite, PostgreSQL, MongoDB
Libraries and frameworks	PyTorch, Keras, Transformers, Scikit-learn, NumPy, Pandas, OpenCV, Gensim, SpaCy, NLTK, Flask, FastAPI, Streamlit, Gradio, ReactJs, NodeJs
Others	Git, Jupyter, Docker, Raspberry Pi, LaTeX

CO-CURRICULAR ACTIVITIES

1. Member of Shalizi–Stats reading group which focuses on the stats book Advanced Data Analysis from an Elementary Point of View by Cosma Shalizi and Bayesian Statistics.
2. Attended the Advanced Language Processing Winter School (ALPS) 2022.
3. ML Collective Natural Language Processing Reading Group Moderator.
